A Celebration of Creativity and Innovation

Americans are known for expressing themselves, especially through art. As one of the oldest artforms, textile arts have illustrated our country's history for over 250 years. Tapestries, embroidery, quilting, and more recently, mixed media works have served to illustrate our ups and downs as a country and society. United We Stitch strives to continue this tradition, by bringing citizens together to share their hopes for our democracy's future through the art of textiles. This display offers audiences an immersive and thought-provoking experience for all, for art lovers and the public at large.
